

Blood Collection Needles

McKesson blood collection needles are ideal for routine blood collection procedures. The sterile, non-pyrogenic needles allow safe multi-sampling without repeated needle sticks to minimize patient discomfort. Designed for simple and effective use, the straight grip needles feature dual-ended, clear and color-coded caps for easy identification of needles sizes and step-by-step instructions.

Features and Benefits

- Sterile, 1-inch needle with regular wall and traditional straight grip design for use in routine blood collection
- Luer adapter design allows for multiple samples to be taken with a single puncture
- Compatible with common needle sizes and fits both 13 mm and 16 mm blood collection tubing
- Compatible with standard tube holders
- Color-coded caps and hubs allow easy identification of needle gauge size during preparation and use
- Beveled tip for smooth venipuncture
- Individually sealed to reduce risk of re-use and ensure safety and sterility
- DEHP-free
- Not made with natural rubber latex

Pair with
McKesson Prevent® HT
tube holders with safety hinge
(MFR# 16-BCTHLDRSF)
to improve safety and OSHA
compliance from preparation
through disposal
