Dimension EXL 200/EXL with LM Integrated Chemistry Systems

Proven chemistry and immunoassay integration on a single system.

Dimension® EXL™ Integrated Chemistry Systems offer fast, easy-to-use versatility and proven outcomes.

- Deliver fast and reliable results using trusted, proven technologies including LOCI® advanced chemiluminescence.
- Free up your staff with automated, productivity-enhancing features, including proactive alerts, STAT sample loading in any position, and single-tube simultaneous sampling for both chemistry and immunoassays.
- Provide a comprehensive menu with many critical laboratory assays.

The Dimension EXL 200 Integrated Chemistry System fits perfectly in STAT and smaller laboratories and tests up to 47 assays at a time.

The Dimension EXL with LM Integrated Chemistry System's Reagent Management System enables streamlined processing of a broad menu of chemistry and immunoassay tests, with up to 91 assays onboard each system.
